Those In Manila Now Appreciate Our Methods.

LUZON EFFECTIVELY BLOCKADED.

"Tinelads" Did What Big Ships Could Not-Agulualdo Will Likely Be Reduced to Using Homemade Ammunition-Health Conditions Improved.

Washington, July 28.—Lieutenant Eberly, flag lieutenant of the Oregon under Captain Barker, arrived in Washington from the Philippines.

Lieutenant Eberly said Manila has been cleaned on an American plan, the military authorities engineering the work with a large force of Chinamen and friendly Filipinos. The streets have been cleared of ancient accumulations of filth and there has been a house-to-house inspection, which is still continuing. There has been more or less native opposition to these innovations, but the people are beginning to see the value of the new measures and to accept the change from the old or-

When the Oregon arrived in march, the native population was dissatisfied and in an ugly humor, even in the city itself. Cabdrivers, hotelkeepers, and other semi-public servants, rendered service under protest, and even turned down American trade in some instances. Now, however, they have found out that they are paid, a thing they did not seem to be used to, and finding American official promises carried out, they accept the new sovereignty cheerfully. Compulsory vaccination created some

opposition among the natives at first, but its beneficial effects being apparent it has also been accepted. Lieutenant Eberly says that the health of Manila is exceptionally good and that even among the troops on

shore, there was little sickness from

anything but heat prostration. One of the most important naval moves has been the distribution of the 13 little "tinclads" among the big vessels of the fleet on the various stations. Through these small craft, he says, there is an effective blockade of the whole of Luzon and some boats have been sent to Mindanao, Negros, Cebu and Palawan. Most of the smuggling of arms, ammunition and food since the arrival of the American squadron has been done in small schooners known as "bankers," which can run through the island channels where the fleet could not follow them. The "tinclad' patrol boats have been doing business with those skimmers of the seas recently, one patrol boat rounding up 13 "bankers" on a single trip. It is thought that in a short time Aguinaldo will be reduced to a supply of purely homemade ammunition.

The soldiers in and around Manila are now well housed in permanent quarters or neipe houses, which are built on a bamboo framework and are cool and dry. Even on the outworks the soldiers had comfortable palm huts before the rain set in, and, except for the intense

heat, were very comfortable The rains had not started earnest when Captain Barker and Lieutenant Eberly sailed for home. It was well understood then that the rains would cut off all transportation except by railway, and that is given as the reason for Lawton's abandoning San Isidro, there being a big swamp between it and the railway that is impassible during the

CALAMBA CAPTURED

BY GEN. HALL'S TROOPS.

Four Soldiers Killed and 12 Wounded Heroism of Two Officers-Mrs. Lawton Showed Coolness.

Manila, July 28. - An expedition comprised of troops from San Pedro Macati, Pasig and Morong, under Brigadier General R. H. Hall, captured Calamba, an important trading town on the south shore of Laguna de Bay. There was about two hours of sharp fighting during which four soldiers were killed and 12 wounded. The trenches commanding the harbor were under water, but the swampiness of the land made the work harder. The troops boarded cascoes the other night. The force comprised 400 of the Washington volunteers, 450 of the Twentyfirst infantry, 150 of the Fourth cavalry and two guns of the First artillery. These and the gunboats Napidan and Costo assembled opposite Calamba the next afternoon. Crowds of people in carts and on foot were seen rushing to the hills. Natives escaping from Calamba in canoes said 100 insurgents held the town.

A force under Captain McGrath of the Twenty-first infantry and Captain Eltonherd landed east of the town, but found a river intervening. Captain McGrath and Lientenant Batson swam the river under a fire from 20 Mauser rifles. Having crossed the stream the officers procured a caseo to ferry the troops over- The insurgents retreated through the town, shooting from houses and bushes as they fled to the hills. Three members of the Washington regiment waded from caspoes through swamps often shoulder deep, while a group of Filipinos concealed in haystacks were shooting at them, until the Napidan focussed her six-pounders and Gatling guns on the stacks for a few minutes. Most of the work was done before the Washington volunteers could reach the town.

The Filipinos left three dead. Of the casualties on the American side two of the killed and three of the wounded were members of the Fourth cavalry and two killed and eight wounded belonged to the Twenty-first infantry.

There was much shooting by amigos, who emerged from the bushes with white flags. After the fight about a dozen men holding up their hands and shouting "Castillanos" met the Americavalry. Even Spanish soldiers em-braced the Americans hysterically. There were 50 Spanish prisoners at Calamba, of whom some were civil offi-cials and some were soldiers. They had been given the choice of joining the Filipino army or becoming servants to Filipinos and chose the army, intending to Josiah Fink. surrender at the first opportunity. Most lines during the fighting, but the insurgents took others away with them in their retreat.

General Hall captured 12 Filpinos with guns.

Major General Henry W. Lawton, Prof. Dean C. Worcester of the American Philippines commission, Mrs. General Lawton and General Lawton's son accompanied the expedition on board a launch and sat coolly in an unprotected boat close to the shore during the fighting, the bullets splashing about

The next day General Hall brought to Manila the Spaniards whom the expedition had released from captivity. The same day Lieutenant Larsen, commanding the Napidan, found a long missing Spanish gunboat which had been covered with bushes and fishnets so as not to resemble a vessel. The Filipinos having met reinforcements and thinking that the Americans had evacuated the town, descended from the hills intending to reoccupy Calamba. eral Hall easily drove them back. General Hall will leave a garrison a

Calamba. It was reported in Filipino circles in Manila that the insurgents recently received consignments of saltpeter and lead from Japan. The insurgents had been experiencing many difficulties in the manufacture of good powder, that which they produced lacking power of

penetration and range. The two friars who were recently arrested here on suspicion that they were the bearers of messages to Aguinaldo from the Filipino junta at Hongkong was liberated for want of evidence upon

which to prosecute them. As soon as authorization can be re ceived from Madrid to incur the necessary expenditures, the Spanish general Jaramillo, will send a commission composed of Senors Toral and Rios to Tarlac to carry food, money, medicine and clothes to the Spanish prisoners there. The commission will also reopen negotiations for the release of the captured. It was reported that \$3,000,000 in Mexican money will be offered to the insurgents for the release of the Spaniards General Jaramillo declined to confirm this report.

TRAITOR'S TRAGIC DEATH

Coloradoan, Who Deserted, Held on Bayonet and Shot to Pieces by Soldiers.

KANSAS CITY, July 28 .- The tragic scene which attended the death of Corporal Leonard F. Hayes, America's only traitor in the Philippines, was witnessed by Sergeant George A. Lamarsh of Company H. Twentieth Kansas volunteers, now in this city.

Corporal Hayes, he said, became en amored of a Filipino beauty, and, deserting his comrades, was placed in charge of a Filipino battery with the rank of lieutenant. He met his death in almost the first engagement in which he fought against his country. Speaking of this battle, Sergeant Lamarsh said:

"We had charged the Filipinos, driv ing them back and killing and wound ing many. Among the wounded lers on the field we found riayes. He was recognized by several or the coys. On: of the soldiers of the Second Oregon drove his bayonet through the body o. the wounded traitor, and lifted him above his head and held him there while the soldiers shot him. The body was thrown into a trench and buried with several dead Filipinos. We would have treated him worse if we had known how." Hayes was a corporal in Company I First Colorado volunteers.

ENJOY MOUNTAIN AIR.

The President Took Long Walks, While Mrs. Mckinley Remained In Her Apartments.

PLATTSBURG, N. Y., July 28.-President and Mrs. McKinley spent their first day at Hotel Champlain very quietly. The president took a long waik through the park surrounding the hotel. He was alone. Later he took another long walk. He keenly enjoyed the bracing air of the Adirondacks and seemed to be much relieved to get away from the cares and worries of Washington. Mrs. McKinley remained in her apartments resting and enjoying the beautiful view of lake and mountain scenery.

The president received official notice of the death of President Heureaux of the republic of Santo Domingo. He immediately dictated and sent a dispatch of condolence.

Carpet-Baggers Arrayed Negroes Against Whites.

CANDLER ON THE RACE PROBLEM.

Another Element Are the Fanatics and Cranks, Who Urge the Blacks to Arm Themselves Against the Whites-Rotten Politics Also Blamed.

ATLANTA, July 29.—Governor Candler has, since the Bainbridge series of lynchings occurred, been asked by newspapers in various parts of the country to give his opinion of the race question in the south. To one he said that before the ballot was thrust into the hands of the negro, unprepared for it and utterly ignorant of its sanctity, of the responsibilities of citizenship, notwithstanding he was a slave, he was happy and well contented.

But after his emancipation came his enfranchisement and with his enfranchisement came a hoard of carpetbaggers, who took charge of him when his former master and protector, with whom he had lived for generations on the most friendly and ofter even on atfectionate terms, was de-citizenized by the partisan reconstruction laws.

They falsely taught the negroes that the southern white men were solely responsible for their enslavement and were their worst and only enemies, and that therefore it was their duty and their interest to vote against them and their party and oppose everything they were in favor of, favor everything they were opposed to-in a word to hate

The civil teachings had but little permanent effect upon the grownup negroes, but upon the children, the generation which has grown to manhood since that time, that effect has been most baneful.

A more immediate cause is the perpetual intermeddling with the relations of the races in the south by fanatics and

Thep publish in the newspaper grossly exaggerated accounts of crimes committed against the negro in the south and omit any notice of the crimes against the white women which provoked the retaliation. They write incendiary letters to turbulent negroes all over the south, advising them to arm themselves with Winchester rifles and for every gnilty rapist who pays the penalty to shoot down the first two white men he meets.

Thousands of such letters have been written to Georgia in the last three months.

Governor Candler says the intermeddlers of the north do not present a respectable minority, and that the lawless and criminal negroes of the south constitute less. Rape is as much deplored by the bet-

ter class of negroes as by the better class of white men. But, as because some negroes commit rape the whole race suffers, so, because some white men lynch ravishers, all the whites of the south are abused.

Another and a continual present cause which contributes to race friction is corrupt politics.

Governor Candler said he believed a restricted suffrage will remedy the evils, that the ballot be given only the intelligent negro. As to the disposition to be made of the large percentage of illiterate negroes, the governor makes no suggestion.

PLANS FOR KILLARNEY.

Tilden's Niece the Purchaser-Croker and Other to Have an Aristocratic Settlement.

LONDON, July 28 .- It is asserted that Mr. Peck, named as purchaser of the Muckross estate, including the lakes of Killarney, is only a figurehead in the deal, which he engineered on behalf of Mrs. Edward McConkey, a niece of the late Samuel Tilden.

Mrs. McConkey is the wife of a rich Baltimore engineer, who is now residing in London.

Mrs. McConkey enlisted the aid of famous Irish peer on the one side and of Richard Croker on the other, and, though the purchase was made by her alone, both of these gentlemen gave her assurances of their aid in developing her

Mr. Croker has been in town for the last three days, busily engaged with his solicitor in preparing the deeds for the purchase of the principal site adjoining Muckross House. For the site alone he stipulated to pay £200,000 and he is required by the terms of the sale to put a proportionate amount in a residence and he agrees to employ at least 50 Irish servants on the ground.

The Irish peer interested will secure the adjoining tract, where an equally beautiful building will be erected.

Muckross House will remain in the possession of the Herbert family in perpetuity, but the rest of the estate will e put on the market, under strict stipulations as to minimum values of the residences to be erected.

The picturesque caves of Colleen Bawn will pe preserved and a large modern hotel is to be erected there. The great object of the scheme is aid residents about Killarney to aid themselves by building up tourist travel which, it is hoped, will benefit the whole island in its political aspect.

Japan and Russia Have Agreement Abou Korea-Former and China Friendly.

Washington, July 28.—The reports that Japan and Russia are arming for a struggle over Korea are received with much allowance in the diplomatic quar ters chiefly concerned, and it is pointed out that an entente cordiale was ar ranged between two countries last year concerning affairs in Korea. This ar been no evidence that either government desired to depart from it.
